ELSEVIER

Bone Vol. 31, No. 6
December 2002:731–737

SUBJECT INDEX
Bone, Volume 31, 2002

Adaptation
Structural response of ulna to mechanical loading, mice, 407
Adenosine triphosphate
Osteoclast activity stimulation by, receptor activator of nuclear factor-κB ligand, 582
Aging
Bone-specific alkaline phosphatase and osteocalcin patterns and, 703
Cancellous bone microdamage in proximal femur, 697
Collagen network changes with, bone toughness and, 1
C-terminal telopeptide of type I collagen concentrations and, circadian variation in, 57
Deproteination effects on bone mineral morphology and, 389
Klotho gene polymorphism association with spondylosis and bone density, postmenopausal women, 37
Osteocyte density in cancellous bone, age and surface distance effects on, women, 313
Alendronate
Microstructural, physical, and mechanical properties effects on trabecular bone, 591
Urine vs. serum midmolecule osteocalcin assay effects, osteoporosis, 62
Alkaline phosphatase
Bone-specific, age, gender, race/ethnicity variations, 703
Paget's disease of bone declining prevalence in New Zealand and, 616
Androgen deficiency
Bone loss in men and, genistein preventive effects, 180
Ankle
Low-trauma fracture, incidence and future projections, elderly patients, 430
Apatite crystallite
Alignment and texture in calcified tissues, microbeam x-ray diffractometer analysis, 479
Apo2L/TRAIL
Apoptosis mediated by, osteoblast resistance to, 448
Apoptosis
Apo2L/TRAIL-mediated, osteoblast resistance to, 448
Arsenic
In cotton mill wastewater, Paget's disease of bone and, 434
Articular cartilage
Type X collagen in, immunostaining for, 690

Basic fibroblast growth factor
Gene expression changes and, bone formation effects, 143
Biochemical markers
Urine vs. serum midmolecule osteocalcin assay, alendronate therapy effects, osteoporosis, 62
Biomaterials
Deproteination effects on bone mineral morphology, 389
Biomechanics
Bone mineral density correlation with strength and microstructure of cortical bone, 90
Organic matrix contribution to bone mechanical properties, Perspective, 8
Bipedal stance exercise
Prostaglandin E_2 and, ovariectomized-induced cancellous bone loss prevention, 402
Body weight
Bone mass/density relation to, Review Article, 547
Bone
Mechanical properties of, organic matrix and, 8
Toughness of, age-related changes in collagen network and, 1
Bone age
Osteocyte density in cancellous bone, age and surface distance effects on, women, 313
Bone architecture
Collagen correlation with structural organization of cancellous bone, 70
Bone composition
Hormone replacement therapy and exercise effects, postmenopausal women, 126
Bone density
Monitoring, quantitative phalangeal ultrasound, hypogonadal men, 422
Vitamin D receptor gene polymorphism and, men, 631
Bone development
Cortical bone mineral density at proximal radius, gender-specific changes during puberty, 110
Transforming growth factor-β deficiency effects on, infrared imaging analysis, 675
Bone formation
Bone morphogenetic protein-4 differentiation of osteoprogenitor cells and, pentoxifylline effects, 396
Ectopic, bone-morphogenetic protein-2-induced, fibroblast growth factor-4 effects on, 465
Ectopic, electroporatic transfer of bone morphogenetic protein-4 gene and, 340
Gene expression changes associated with basic fibroblast growth factor and, 143
Genes active during, identification of, 205
Leukemia inhibitory factor/IL-6 family cytokines during, dexamethasone regulatory effects, 212
Mechanically induced, bone morphogenetic protein-7 enhancement of, 570
Mechanosensitivity and, genetic effects, mice, 562
Rate of, osteocyte density and, relationship in cancellous bone, 709
Relation to bone size and bone strength, 670
Surface-specific defects in, idiopathic juvenile osteoporosis, 85
Bone fragility
Hypervitaminosis A as cause of, rats, 685
Osteogenesis imperfecta, clinical features and classification, 12
Bone loss
After ovariectomy, bipedal stance exercise effects, 402
Cyclical behavior, postmenopausal women, prospective study, 718
Interleukin-6 gene polymorphism and, postmenopausal women, 43
Men, age-related, cerivastatin and parathyroid hormone effects, 173
Men, genistein preventive effects, 180
Milk supplementation preventive role, postmenopausal Chinese women, 536
Prednisolone-induced, vitamin K_2 effects, 575
Rate of, interleukin-1 receptor antagonist genotypes role in, 612
Bone marrow edema syndrome
Transient osteoporosis of hip, pamidronate effects, 96
Bone marrow stromal cells
Hepatocyte growth factor/1,25-dihydroxyvitamin D_3 effects on osteoblast differentiation, 269
Bone mass
Body weight relation to, Review Article, 547
Microgravity effects, 149

PII S8756-3282(02)0028-3

Bone Vol. 31, No. 6
December 2002:731–737

Osteogenesis imperfecta and, 12
Bone metabolism
Chemotherapy effects, children, 319
Bone metastasis
From breast carcinoma, 529
Bone mineral density (BMD)
Body weight relation to, Review Article, 547
Correlation with strength and microstructure of cortical bone in vivo, 90
Estrogen receptor β gene polymorphism association with, pre- vs. postmenopausal women, 276
Interleukin-6 gene polymorphism and, postmenopausal women, 43
Klotho gene polymorphism association with, postmenopausal women, 37
Levels in the Middle East, 520
Mast cells role in idiopathic osteoporosis in men and, 556
Measurement during growth, dual-energy x-ray absorptiometry, 492
Osteoporosis and, impact on quality of life, 32
Reduced, postmenopausal women with premenopausal wrist fractures, 102
Sex hormones relation to, middle-aged men, exercise intervention trial, 51
SOST gene association with, polymorphism analysis, perimenopausal women, 515
Trabecular bone mechanical properties, predictions of, 503
Transient osteoporosis of hip, pamidronate effects, 96
Bone mineral morphology
Deproteination effects on, 389
Bone mineralization
Bone morphogenetic protein-2-induced, fibroblast growth factor-4 effects, 465
Bone morphogenetic protein
Fracture healing effects, 158
Signaling during preosteoblastic KS483 differentiation, osteoblast formation and, 661
Bone morphogenetic protein-2
Ectopic bone formation induced by, fibroblast growth factor-4 effects on, 465
Bone morphogenetic protein-4
Differentiation of osteoprogenitor cells, pentoxifylline effects, 396
Bone morphogenetic protein-7
Bone formation enhancement and, 570
Bone morphogenetic protein-4 gene
Electroporatic transfer of, ectopic bone formation and, 340
Bone quality
Risedronate effects, postmenopausal osteoporosis, 620
Bone remodeling
Cyclical behavior, postmenopausal women, prospective study, 718
Surface-specific defects in bone formation, idiopathic juvenile osteoporosis, 85
Trabecular bone, stochastic simulations of, 413
Bone repair
Osteogenic protein-1 effects, 158
Bone resorption
C-terminal telopeptide of type I collagen concentrations and, circadian variation in, 57
Extracellular Ca^{2+} concentration in osteoclast and, 374
Glycerol-induced renal failure and, parathyroid hormone effects, 488
Interleukin-11 effects, 242
Markers of, 25-hydroxyvitamin D and, in vitamin D insufficiency, 626
Bone size
Relation to bone strength and bone formation, 670
Bone strength
Hormone replacement therapy and exercise effects, postmenopausal women, 126
Microstructure of cortical bone and, bone mineral density correlation with, 90
Relation to bone size and bone formation, 670
Bone thickness
Horizontal vs. vertical trabeculae in lumbar bone, age-related changes, computerized assessment model, 136
Bone turnover
C-terminal telopeptide of type I collagen, circadian variation in concentrations of, 57
Paget's disease of bone, management guidelines, 366
Risedronate effects, postmenopausal osteoporosis, 620
Vitamin D receptor gene polymorphism and, men, 631
Bone volume
Mandibular condyle, occlusal support loss effects on, 230
Breast carcinoma
Bone metastasis alterations from, 529
Brittle bone disease
Osteogenesis imperfecta type VII and, 12
Broadband ultrasound attenuation
Corrected calf girth, falling incidence and bone mass effects, postmenopausal women, 195
Trabecular bone mechanical properties, predictions of, 503

Calcitonin
Focal adhesion kinase phosphorylation and Pyk2 dephosphorylation in osteoclasts, 359
Cancellous bone
Bone collagen correlation with structural organization of, 70
Bone formation rate and osteocyte density in, 709
Microdamage, in proximal femur, age and osteoarthritis influence on morphology and regional distribution, 697
C2C12 cells
Osteoblast differentiation of, core-binding factor α_1 induction of, 303
Cementum matrix
Formation by dental follicle cells, 606
Cerivastatin
Parathyroid hormone and, age-related bone loss in men effects, 173
Chemotherapy
Bone formation and, children, 319
Children
Chemotherapy effects on bone formation, 319
Cortical bone mineral density at proximal radius, gender-specific pubertal changes in, 110
Idiopathic juvenile osteoporosis, surface-specific defects in bone formation in, 85
Chondrocytes
Growth plate, dexamethasone and thyroid hormone effects, 457
Heparan sulfate abnormalities in exostosis growth places and, 199
Chondrocytic tissue culture
Endochondral ossification and, 333
Chondrogenesis
Growth plate, thyroid hormone and dexamethasone effects on, 457
Chromosome mapping
Osteogenesis imperfecta type VII, 19
Chronobiological rhythm
Cyclical behavior of bone remodeling/loss and, postmenopausal women, 718
Circadian variation
C-terminal telopeptide of type I collagen concentrations and, 57
Clodronate
Bioavailability of, dose comparison study, 418
Collagen
Correlation with structural organization of cancellous bone, 70
Organic matrix contribution to bone mechanical properties, Perspective, 8
Collagen, type I
C-terminal telopeptide of, circadian variation in concentrations of, 57
Green fluorescent protein transgene expression in osteoblast differentiation, comparison with osteocalcin promoter, rats, 654
Collagen, type X
Immunostaining for in articular cartilage, 690
Collagen fiber orientation
In femoral neck, locomotion effects, apes and humans, comparison study, 327

Collagen network
Age-related changes in, bone toughness and, 1
Computed tomography
Peripheral quantitative, hypervitaminosis A as cause of fragile bones, 685
Peripheral quantitative, thoracolumbar spine mechanical strength, predictors, elderly patients, 77
Quantitative, thoracolumbar spine mechanical strength, predictors, elderly patients, 77
Computer simulations
Trabecular bone remodeling, 413
Condylar growth
Occlusal support loss effects on adaptive changes during, 230
Connective tissue growth factor/hypertrophic chondrocyte-specific gene product 24
Expression during fracture healing, 441
Core-binding factor α_1
Induction of osteoblast differentiation of C2C12 cells, 303
Cortex
Bone formation, surface-specific defects in, idiopathic juvenile osteoporosis, 85
Mechanical contribution to vertebrae, 351
Cortical bone
Bone mineral density at proximal radius, gender-specific pubertal changes in, 110
Bone mineral density correlation with strength and microstructure in vivo, 90
Cortisol
C-terminal telopeptide of type I collagen concentrations and, circadian variation in, 57
C-terminal telopeptide of type I collagen
Circadian variation in concentrations of, 57

Denaturation
Aging-related change in collagen network and, 1
Dental follicle
Cementum matrix formation and, 606
Development
Developmentally regulated monocyte recruitment and bone resorption, monocytic chemoattractant protein-1 gene deletion and, 282
Dexamethasone
Growth plate chondrocytes and, 457
Regulatory effects on leukemia inhibitory factor/IL-6 family cytokines during osteogenesis, 212
Diffractometer
Microbeam x-ray, apatite crystallite alignment and texture in calcified tissue analysis, 479
Dual-energy x-ray absorptiometry (DXA)
Bone mineral and soft tissue measurements during growth, 492
Thoracolumbar spine mechanical strength, predictors, elderly patients, 77

Elderly patients
Low-trauma ankle fracture, incidence and future projections, 430
Thoracolumbar spine mechanical strength, predictors of, 77
Epidemiology
Arsenic in cotton mill wastewater and Paget's disease of bone, 434
Bone mineral density, levels in the Middle East, 520
Fracture risk predictors, medical and drug history utility in, 508
Limb fracture incidence, falls incidence and, 712
Paget's disease of bone, declining prevalence in New Zealand, 616
Paget's disease of bone management guidelines, 366
Secondary osteoporosis, distal forearm fracture risks and, 119
Estrogen deficiency
Cyclical behavior of bone remodeling/loss and, postmenopausal women, 718
Estrogen receptor β gene polymorphism
Association with bone mineral density, pre- vs. postmenopausal women, 276
Ethnicity
Bone mineral density levels in the Middle East and, 520
Bone-specific alkaline phosphatase and osteocalcin patterns and, 703
Milk supplementation effects on bone loss, postmenopausal Chinese women, 536
Exercise
Bipedal stance, prostaglandin E_2 and, ovariectomy-induced cancellous bone loss prevention, 402
Hormone replacement therapy and, bone mass distribution and, postmenopausal women, 126
Sex hormones relation to bone mineral density, middle-aged men, 51
Exostosis
Growth places, heparan sulfate abnormalities in, 199
Extracellular regulated kinase
Activation in osteoblast, mechanical strain and fluid movement effects, 186
Extracellular signal-regulated kinase
Paracrine activation of, wound healing effects, 288

Falls
Incidence of, between-center differences in limb fracture incidence in Europe and, 712
Fatty acids
Polyunsaturated, adipocyte inhibition of osteoblastic proliferation, 260
Femur
Proximal, cancellous bone microdamage in, age and osteoarthritis influence on morphology and regional distribution, 697
Fibroblast growth factor-4
Ectopic bone formation induced by bone morphogenetic protein-2 effects, 465
Finite element analysis
Bone mechanical properties, trabecular and cortical components contribution to, 351
Focal adhesion kinase
Phosphorylation of, Pyk2 dephosphorylation and, in osteoclasts, calcitonin effects, 359
Forearm, distal
Fracture of, secondary osteoporosis and, 119
Fracture healing
Connective tissue growth factor/hypertrophic chondrocyte-specific gene product 24 expression during, 441
Growth hormone, insulin-like growth factor-1, and transforming growth factor-β1 effects, 165
Osteogenic protein-1 effects, 158
Fracture risk
Predictors of, medical and drug history utility in, 508
Fractures
Distal forearm, risks of, secondary osteoporosis and, 119
Hip, osteoporosis, intervention thresholds for, 26
Limb, incidence in Europe, fall incidence effects on between-center differences in, 712
Low-trauma ankle, incidence and future projections, elderly patients, 430
Organic matrix contribution to bone mechanical properties, Perspective, 8
Osteoporosis, impact on quality of life and, 32
Osteoporotic, menatetrenone effects, elderly females with Parkinson's disease and vitamin D deficiency, 114
Premenopausal wrist, bone mineral density reductions in postmenopausal women, 102

Gender
Bone mineral density levels in the Middle East and, 520

Bone Vol. 31, No. 6
December 2002:731–737

Bone-specific alkaline phosphatase and osteocalcin patterns and, 703
Gene expression
Changes associated with basic fibroblast growth factor, bone formation effects, 143
Gene therapy
Bone morphogenetic protein-4 gene, electroporatic transfer of, ectopic bone formation and, 340
Genetic studies
Bone loss rate and, interleukin-1 receptor antagonist genotypes role in, 612
Bone mechanosensitivty, mice, 562
Genes active during osteoblast differentiation, identification of, 205
Genistein
Bone loss prevention in men and, 180
Glucocorticoid
Osteoporosis induced by, sodium orthovanadate preventive effects, 220
Growth
Bone mineral and soft tissue measurement during, dual-energy x-ray absorptiometry, 492
Growth factors
Basic fibroblast, gene expression changes associated with, bone formation effects, 143
Osteogenic protein-1, fracture healing effects, 158
Growth hormone
Insulin-like growth factor-1, transforming growth factor-β1, and, fracture healing effects, 165
Growth inhibition
Parathyroid hormone-related protein secretion by osteosarcoma and, 598
Growth plate
Chondrocytes, thyroid hormone and dexamethasone effects on, 457
Exostosis, heparan sulfate abnormalities in, 199

Health care costs
Osteoporosis, intervention thresholds, 26
Heparan sulfate
Abnormalities, in exostosis growth places, 199
Hindlimb unloading
Bone mineral density changes and, 149
Hip
Transient osteoporosis of, pamidronate effects, 96
Hip fracture
Calf circumference as risk factor, corrected girth by broadband ultrasound attenuation, postmenopausal women, 195
Osteoporosis, intervention thresholds, 26
Histomorphometry
Bone metastasis from breast carcinoma, 529
Microgravity, bone mineral density changes and, 149
Surface-specific defects in bone formation in idiopathic juvenile osteoporosis, 85
Hormone replacement therapy
Exercise and, bone mass distribution and, postmenopausal women, 126
Hybridization, in situ
Connective tissue growth factor/hypertrophic chondrocyte-specific gene product 24 expression during fracture healing and, 441
25-Hydroxyvitamin D
Bone resorption markers and, in vitamin D insufficiency, 626
Hypercalcemia
Clodronate bioavailability, dose comparison study, 418
Hypervitaminosis A
Fragile bones and, rats, 685
Hypogonadism
Bone density monitoring by quantitative phalangeal ultrasound, 422

Imaging, infrared
Transforming growth factor-β deficiency effects on bone development, 675
Immunoblotting
Paracrine activation of extracellular signal-regulated kinase, wound healing effects, 288
Immunohistochemistry
Type X collagen in articular cartilage, 690
Immunostaining
Connective tissue growth factor/hypertrophic chondrocyte-specific gene product 24 expression during fracture healing and, 441
In memoriam
Aurelio Rapedo Errazti, 639
Insulin
Body weight relation to bone mass/density and, Review Article, 547
Insulin-like growth factor-1
Growth hormone, transforming growth factor-β1, and, fracture healing effects, 165
Interleukin-11
Bone resorptive effects, 242
Interleukin-6 gene polymorphism
Bone mineral density and bone loss, postmenopausal women, 43
Interleukin-1 receptor antagonist genotypes
Bone loss rate and, 612
***Klotho* gene polymorphism**
Bone density and lumbar spine spondylosis, postmenopausal women, 37
Kyphosis
Osteoporosis and, impact on quality of life, 32

Leptin
Body weight relation to bone mass/density and, Review Article, 547
Leukemia inhibitory factor/IL-6 family cytokines
During osteogenesis, dexamethasone regulatory effects, 212
Linkage studies
Osteogenesis imperfecta type VII, mapping to chromosome 3, 19
Locomotion
Collagen fiber orientation in femoral neck and, apes and humans, comparison study, 327
Louis V. Avioli Founders Award
2002 winner, Roland Baron, 545

Mast cells
Idiopathic osteoporosis in men and, 556
Matrix metalloproteinase-9
Expression during tooth resorption in bovine odontoclasts, 472
Mechanical loading
Genetic effects on mechanosensitivity, mice, 562
Structural response of ulna to, mice, 407
Mechanical properties
Alendronate effects on trabecular bone, 591
Trabecular and cortical components contribution to, 351
Trabecular bone, bone mineral density, ultrasound velocity, broadband attenuation predictions of, comparison study, 503
Trabecular bone, microcomputed tomography assessment, 107
Mechanical strain
Extracellular regulated kinase activation in osteoblast and, 186
Men
Age-related bone loss, cerivastatin and parathyroid hormone effects, 173
Bone loss, genistein preventive effects, 180
Hypogonadism, bone density monitoring by quantitative phalangeal ultrasound, 422
Idiopathic osteoporosis in, mast cell role in pathogenesis of, 556
Middle-aged, sex hormones relation to bone mineral density, exercise intervention trial, 51
Vitamin D receptor gene polymorphism effects on bone density/turnover, 631

Menatetrenone
Osteoporosis effects, elderly females with Parkinson's disease and vitamin D deficiency, 114
Prednisolone-induced bone loss and, 575
Metastasis
Bone, breast carcinoma and, 529
MG-63 cells
Vector-averaged microgravity effects on cell signaling and vitamin D receptor activity in, EB1089 effects, 381
Microgravity
Bone mineral density changes and, 149
Vector-averaged, cell signaling and vitamin D receptor activity in MG-63 cells, EB1089 effects, 381
Milk supplementation
Bone loss prevention and, postmenopausal Chinese women, 536
Morphogenesis
Limb, growth-generated strains and pressures role in, 645

Nitric oxide
Production by osteoblasts, ultrasound stimulation of, 236
Nuclear factor-κB, receptor activator of
Adenosine triphosphate stimulation of osteoclast activity and, 582
Interleukin-11 effects, 242
Parathyroid hormone regulation of, 252

Occlusal support
Loss of, effects on adaptive changes during condylar growth, 230
Odontoclasts
Tooth resorption in, matrix metalloproteinase-9 and protein expression during, 472
Orchidectomy
Bone loss in men and, genistein preventive effects, 180
Organic matrix
Bone mechanical properties and, 8
Orthovanadate, sodium
Glucocorticoid-induced osteoporosis prevention and, 220
Ossification
Connective tissue growth factor/hypertrophic chondrocyte-specific gene product 24 expression during fracture healing and, 441
Endochondral, chondrocytic tissue culture and, 333
Osteoarthritis
Cancellous bone microdamage in proximal femur, 697
Klotho gene polymorphism association with spondylosis and bone density, postmenopausal women, 37
Osteoblast
Apo2L/TRAIL-mediated apoptosis and, resistance to, 448
Extracellular regulated kinase in, mechanical strain and fluid movement activation, 186
Formation, bone morphogenetic protein signaling during preosteoblastic KS483 differentiation, 661
Nitric oxide and prostaglandin E_2 production by, ultrasound stimulation of, 236
Trauma to, paracrine activation of extracellular signal-regulated kinase, 288
Osteoblast differentiation
Of C2C12 cells, core-binding factor á$_1$ induction of, 303
Genes active during, identification of, 205
Green fluorescent protein transgene expression in, type I collagen and osteocalcin promoter comparison, rats, 654
Leukemia inhibitory factor inhibition of, 212
Osteoblast proliferation
Polyunsaturated fatty acids role in adipocyte inhibition of, 260
Osteocalcin
Patterns of, age, gender, race/ethnicity variations, 703
Osteocalcin assay
Urine vs. serum midmolecule, alendronate therapy effects, osteoporosis, 62
Osteoclast
Adenosine triphosphate stimulation of, receptor activator of nuclear factor-êB and, 582
Extracellular Ca^{2+} concentration, bone resorption and, 374
Focal adhesion kinase phosphorylation and Pyk2 dephosphorylation in, calcitonin effects on, 359
Formation, interleukin-11 effects, 242
Paget's disease of bone, arsenic in cotton mill wastewater and, 434
Osteocyte
Density in cancellous bone, age and surface distance effects on, women, 313
Osteocyte density
Bone formation rate and, relationship in cancellous bone, 709
Osteogenesis
Leukemia inhibitory factor/IL-6 family cytokines during, dexamethasone regulatory effects, 212
Osteogenesis imperfecta
Clinical features and classification, 12
Type VII, mapping to chromosome 3, 19
Osteogenic protein-1
Bone morphogenetic protein-7 and, bone formation effects, 570
Fracture healing effects, 158
Osteolysis
Malignancy and, clodronate bioavailability, dose comparison study, 418
Osteopenia
Chemotherapy effects on bone formation, children, 319
Osteoporosis
Body weight relation to bone mass/density and, Review Article, 547
Bone loss in men and, genistein preventive effects, 180
Bone loss rate, interleukin-1 receptor antagonist genotypes role in, 612
Bone mineral density levels in the Middle East, 520
Fracture probability in, intervention threshold determinations, 26
Fracture risk predictors, medical and drug history utility in, 508
Glucocorticoid-induced, sodium orthovanadate preventive effects, 220
Hypervitaminosis A as cause of fragile bones, 685
Idiopathic, in men, mast cell role in pathogenesis of, 556
Idiopathic juvenile, surface-specific bone formation defects in, 85
Impact on quality of life, 32
Klotho gene polymorphism association with spondylosis and bone density, postmenopausal women, 37
Menatetrenone effects, elderly females with Parkinson's disease and vitamin D deficiency, 114
Organic matrix contribution to bone mechanical properties, Perspective, 8
Postmenopausal, risedronate effects on bone quality/turnover, 620
Secondary, distal forearm fracture risk and, 119
SOST gene association with bone mineral density and, perimenopausal women, 515
Transient, hip, pamidronate effects, 96
Urine vs. serum midmolecule osteocalcin assay, alendronate therapy effects, 62
Osteoprogenitor cells
Pentoxifylline enhancement of bone morphogenetic protein-4 differentiation of, 396
Osteosarcoma
Osteoblastic, parathyroid hormone-related protein secretion by, growth inhibition effects, 598
Ovariectomy
Bone loss after, bipedal stance exercise effects, 402

Paget's disease of bone
Alendronate effects on urine vs. serum midmolecule osteocalcin assay effects, osteoporosis, 62

Bone Vol. 31, No. 6
December 2002:731–737

Arsenic in cotton mill wastewater and, 434
Declining prevalence in New Zealand, 616
Management guidelines, 366
Pamidronate
Transient osteoporosis of hip, 96
Paracrine
Extracellular signal-regulated kinase activation and, wound healing effects, 288
Parathyroid hormone
Bone resorption in glycerol-induced renal failure and, 488
Cerivastatin and, age-related bone loss in men effects, 173
Receptor activator of nuclear factor-κB regulation, 252
Parathyroid hormone-related protein
Secretion by osteosarcoma, growth inhibition effects, 598
Parkinson's disease
Menatetrenone effects on osteoporosis and, elderly females, 114
Pentoxifylline
Bone morphogenetic protein-4 differentiation of osteoprogenitor cells and, 396
Periosteum
Bone formation relation to bone size and bone strength, 670
Pharmacokinetics
Clodronate bioavailability, dose comparison study, 418
Polymorphism
SOST gene association with bone mineral density, perimenopausal women, 515
Polyunsaturated fatty acids
Adipocyte inhibition of osteoblastic proliferation, 260
Prednisolone
Bone loss induced by, vitamin K_2 effects, 575
Pressure
Limb morphogenesis and, 645
Preventive medicine
Low-trauma ankle fracture, incidence and future projections, elderly patients, 430
Prostaglandin E_2
Bipedal stance exercise and, ovariectomy-induced cancellous bone loss prevention, 402
Production by osteoblasts, ultrasound stimulation of, 236
Protein
Expression during tooth resorption in bovine odontoclasts, 472
Protein kinase A
Parathyroid hormone regulation of receptor activator of nuclear factor-κB and, 252
Puberty
Gender-specific changes in cortical bone mineral density at proximal radius, 110
Pyk2 dephosphorylation
In osteoclasts, calcitonin effects, 359

Quality of life
Osteoporosis impact on, 32

Renal failure
Glycerol-induced, bone resorption in, parathyroid hormone effects, 488
Retinol
Fragile bones and, 685
Risedronate
Bone quality/turnover effects, postmenopausal osteoporosis, 620

Sex hormones
Bone mineral density and, middle-aged men, exercise intervention trial, 51
Skeletal development
Bone morphogenetic protein-7 effects, 570
Limb morphogenesis, strain and pressure role in, 645
Smad
Core-binding factor α_1 induction of osteoblast differentiation of C2C12 cells and, 303
Soft tissue
Measurement during growth, dual-energy x-ray absorptiometry, 492
***SOST* gene**
Association with bone mineral density, polymorphism analysis, perimenopausal women, 515
Spondylosis
Klotho gene polymorphism association with, postmenopausal women, 37
Spongiosa
Mechanical contribution to vertebrae, 351
Strain
Limb morphogenesis and, 645
Stress-activated protein kinase
Vector-averaged microgravity effects on cell signaling and vitamin D receptor activity in MG-63 cells and, 381

Testosterone
Male hypogonadism, bone density monitoring by quantitative phalangeal ultrasound, 422
Thoracolumbar spine
Mechanical strength of, predictors, elderly patients, 77
Thyroid hormone
Growth plate chondrocytes and, 457
Tissue, calcified
Apatite crystallite alignment and texture in, microbeam x-ray diffractometer analysis, 479
Tissue culture
Chondrocyte, endochondral ossification and, 333
Tissue engineering
Bone morphogenetic protein-4 gene, electroporatic transfer of, ectopic bone formation and, 340
Tomography, microcomputed
Alendronate effects trabecular bone properties, 591
Bone mechanical properties, trabecular and cortical components contribution to, 351
Trabecular bone structural/mechanical properties assessment, 107
Tooth eruption
Developmentally regulated monocyte recruitment and bone resorption, monocytic chemoattractant protein-1 gene deletion and, 282
Tooth germ
Dental follicle and, 606
Tooth resorption
In bovine odontoclasts, matrix metalloproteinase-9 and protein expression during, 472
Trabeculae
Horizontal vs. vertical, thickness of, age-related changes in, computerized assessment model, 136
Trabecular bone
Alendronate microstructural, physical, and mechanical properties effects, 591
Bone collagen correlation with structural organization of, 70
Mechanical properties, bone mineral density, ultrasound velocity, and broadband attenuation predictions of, comparison study, 503
Remodeling, stochastic simulations of, 413
Structural/mechanical properties of, microcomputed tomography effects on assessment, 107
Transforming growth factor-β1
Growth hormone, insulin-like growth factor-1, and, fracture healing effects, 165
Transforming growth factor-β deficiency
Bone development effects, infrared imaging analysis, 675

Ulna
Structural response to mechanical loading, mice, 407
Ultrasound
Nitric oxide and prostaglandin E_2 production by osteoblasts and, 236
Quantitative, thoracolumbar spine mechanical strength, predictors of, elderly patients, 77
Quantitative phalangeal, bone density monitoring, hypogonadal men, 422

Velocity, trabecular bone mechanical properties, predictions of, 503

Vitamin A
Excessive doses, fragile bones and, 685
Vitamin D insufficiency
25-hydroxyvitamin D and bone resorption markers in, 626
Vitamin D receptor gene polymorphism
Bone density/turnover effects, men, 631
Vitamin K_2
Prednisolone-induced bone loss and, 575

Women
Osteocyte density in cancellous bone, age and surface distance effects on, 313
Women, postmenopausal
Bone composition/strength, hormone replacement therapy and exercise effects, 126
Bone mineral density reductions, premenopausal wrist fractures and, 102
Cyclical behavior of bone remodeling/loss, prospective study, 718
Estrogen receptor β gene polymorphism association with bone mineral density in, comparison with premenopausal women, 276
Interleukin-6 gene polymorphism and bone mineral density in, 43
Klotho gene polymorphism association with spondylosis and bone density, 37
Menatetrenone effects on osteoporosis in women with Parkinson's disease, 114
Milk supplementation effects on bone loss, Chinese women, 536
Osteoporosis, risedronate effects on bone quality/turnover, 620
Wound healing
Paracrine activation of extracellular signal-regulated kinase and, 288
